

Personalis Inks Deal in Menlo Park

Joint Venture Signs Genomics Company to 31,000-SF Lease

2/20/15

By John Walz

Personalis, a genome diagnostic services company, signed a 66-month lease for 31,000 square feet at 1330 and 1360 O'Brien Dr. in Menlo Park, CA.

The two buildings total 45,990 square feet within the 50-acre, 900,000-square-foot Menlo Business Park. Tarlton Properties developed the park in 1985 and sold 90% of it to Des Moines, IA-based Principal Real Estate Investors in January 2014.

Personalis' lease is for the entire building at 1330 O'Brien and the second floor of 1360 O'Brien. The new facility affords the company additional office and laboratory space and can accommodate future growth, according to CEO of Personalis, John West.
