

# Tarlton's Latest Lease

Feb 23, 2015

On the heels of a big fundraising round, clinical diagnostic lab Personalis just inked a 66-month lease for more than 31k SF at Menlo Business Park. Personalis will occupy the entire building at 1330 O'Brien and the second floor at 1360 O'Brien. (Above, CEO John Tarlton on the move.) Personalis provides researchers and clinicians DNA sequencing, and recently completed a \$33M Series C financing round (to date, it's gotten \$75M). The lease comes soon after the signing of an 18k SF long-term lease and expansion by Intersect ENT in the business park.
